PRO SERIES™ 370 ECONO BLEND™ BLUE

Blended with magnesium chloride for fast and effective ice melting. Econo Blend™ Blue Ice Melter brings together sodium chloride and magnesium chloride to deliver the melting power you need, even at temperatures as low as -7°F/-21°C. Its blue crystals help you avoid under- or over-applying, for a more efficient application that saves you time and money. Econo Blend™ Blue provides a variety of advantages over basic rock salt. Econo Blend Blue melts to lower temperatures, and is less harmful to grass and vegetation. In fact, it is 67% less corrosive on metal than rock salt. High-visibility blue crystals help make application more efficient, while a corrosion inhibitor reduces potential damage to metal and concrete.

SS56370 Econo Blend™ Blue Ice Melter 50 lbs.

PRO SERIES™ 750 MAGNESIUM CHLORIDE

Safe Step® Magnesium Chloride provides outstanding performance in extreme cold temperatures, melting ice down to an impressive -25°F/-32°C. Designed with a unique crystal shape, it provides the optimum combination of ice penetration and scatter control, and begins working on contact. It dissolves quickly, creating a powerful, long-lasting brine solution. For even the worst winter cold spells, count on the power of Safe Step® Magnesium Chloride. Safer towards plants and animals, it won't harm human hands or pets' paws. In fact, it's even less toxic than baking soda. Among today's ice melters, Safe Step® Magnesium Chloride is one of the most gentle, most environmentally responsible solutions, all without sacrificing performance.

SS53750 Magnesium chloride Ice Melter 50 lbs.
